Dear Parents and students,
Greetings from Indian School Salalah!

From the day the school reopened after long spell of covid-19 uncertainty, once again the campus has become vibrant with various academic and CCA activities. The entire school building is filled with beaming faces- curious to grab the missing classroom environment

Though the pandemic had subsided, the school has taken a cautious approach; Covid-19 safety protocol is maintained until we felt it was safe for the students and the staff. Health and safety of the students and staff are our paramount responsibility. And in this direction, we have taken a proactive step by renovating the old block of the school building. In addition to waterproofing the roofs, the ceiling and the walls are repaired, and the washrooms are renovated. The entire school building has been repainted to give it a facelift.

The past few months have been packed with activities and celebrations. The 40th anniversary celebrations commenced with a blood donation camp in May 2022. A series of activities are lined up to make it a memorable year.

Our school has crossed many milestones during the past four decades. The most cherishing one among them is that the school has been successful in producing thousands of good human beings who are serving in different parts of the world. From a remote, interior school, Indian school Salalah has risen to become a reckoned name among the Indian School system in Oman.

The founders of Indian School Salalah had envisaged to provide quality education to its stake holders. In order to achieve this goal, the school has been working towards getting it accredited by the NABET (National Accreditation Board for Education & Training, a constituent board of the Quality Council of India) In this direction, the school has moved a step closer to achieve the NABET accreditation, as the assessment team (New Delhi) inspected school and interacted with the parents and students on 24th and 25th August, 2022. The school has also received the extension letter of the CBSE Affiliation till 31/03/2028.

The CBSE Board results of classes X and XII (2022) gave a moral boost to the parents, students, and the staff. Despite all the odds, the students were able to put an end to all the speculation with their brilliant performance.

The past couple of months witnessed excellent performance by our students in various interschool and intra school competitions. Our students have won accolades in the Ambassador's polemic challenge, STAI and AKAM (India @75).

The forthcoming months are crucial for the students both in academics and co-curricular activities. Let them make the best use of each moment they spend at Indian School Salalah and make the school feel proud of them.

Wishing you all a successful academic year.

Principal, Indian School Salalah
