

INDIAN SCHOOL SALALAH

ACADEMIC YEAR 2019-2020

NEWSLETTER VOLUME V

Education is the key to emancipation and it can empower man to accomplish everything in life. Education is the nectar which turns man into a good human being and if man continues to drink it then anyone can metamorphose into a demigod. Education is the spark that ignites the mind, body, and intellect which further develops into skills and knowledge.

Indian School Salalah aims to develop skills rather than string knowledge in students' minds. It aims to integrate education with practical aspects. We believe progress and development can be obtained by working experientially, not just by reading books or passing one exam after another. We aim to mix education with skill development, experimentation, field trips, practical work, projects, research work and hands-on training which when introduced at an early age achieves the objectives of education.

The months of October and November were illustratively packed with a plethora of events.

Outdoor activities

Celebrating events and festivals in schools have become an integral part of learning and building a strong cultural belief in a child. Indian School Salalah encourages its students to embrace other traditions and culture just like the way they do with their own.

Children will remember an important day only if they are told what the occasion signifies, making them aware of the world in a more fun filled way. The events and festivals organized at Indian School Salalah are often celebrated with great pomp and gaiety. Apart from classroom activities, we also pay heed to the National festivals which must be celebrated in order to understand our motherland's as well as the foster country's rich and varied traditions.

Such celebration will bring students closer to traditional and cultural values. A close bond is built between the students as they understand each other's different customs. Being a multi cultural school, the students need to know what each festival means, and it is only through these celebration that they will get to know more about our country. Apart from building relationship and friendship, such celebration will bring happiness and love amongst the students.
