

## **INDIAN SCHOOL SALALAH**

(Circular Dated: 14/05/2012)

Dear Parents,

This circular is in connection with safety of children while travelling/boarding/disembarking in school transports.

The parents and drivers are requested to ensure that every child who has boarded the bus disembarks at the destination whether school or home. There is need to exercise abundant caution in this regard. You are also requested to ensure the hired drivers are vigilant and ensure the safety of the children while boarding the bus or car from the school during afternoon hours.

Keeping children safe in the school zone is a top priority. As a driver the most important thing you can do to protect children in school zones is to slow down. Parents, teachers and drivers not only have the responsibility of safety sharing the road with other motorists, school buses, pedestrians and cyclists, but they also have the added duty of teaching children about traffic safety.

Please remember that it is the collective responsibility of the parents, drivers and the school to ensure the safety of our children.

Regards,

**T. R. BROWN**  
Principal
