To: The Parents of children appearing for the CBSE Board Exams

**Dear Parents / Guardians,**

Greetings of the Day!

*Subject: Supporting Our Students Through the CBSE Board Examinations*

Today marks the beginning of a monumental chapter. As our Class X students step into their CBSE Board Examinations today, followed by our Class XII students tomorrow, we are witnessing the first major harvest of their hard work and dreams. This milestone belongs to all of us; while our children sit at those desks, our role as parents and educators is the steady heartbeat behind their courage.

To ensure our students navigate this season with clarity and confidence, we request your cooperation to help them shine and prioritize their well-being. Please ensure your child receives at least six to seven hours of restorative sleep. A rested mind is the secret to focus and memory retention.

Also, we encourage you to transform your home into a zone of positivity. A kind word or a reassuring smile can do more for their performance than an extra hour of frantic study.

Furthermore, in our collective desire for their success, let us remember that a child's worth is not defined by a mark on a page, as every student is a unique world of potential.

Once an examination is finished, please help them close that chapter. We strongly advise that students and the parents, please avoid 'post-exam post-mortems' or debating answers with others. Such discussions offer no benefit and often cause unnecessary stress. Let us keep their eyes fixed firmly and confidently on the next challenge.

With patience, trust, and boundless pride, let us carry them through this journey together. We wish and pray that their hard work translates into the bright future they deserve.  
Stay Blessed. Stay Sympathetic.

Kind Regards,

Syed Ahmad Salman  
Chairman - Board of Directors
