- **Marks** are indicated against each question.

SECTION-A READING

1. Read the passage carefully:

Meena is a curious girl who loves to read books and explore nature. Every evening, she spends time in the small park near her house. She enjoys watching the tall trees, colourful flowers, and chirping birds. Sometimes, she takes her notebook and writes down the names of plants and animals she sees.

One day, she noticed a squirrel running quickly across the grass to hide its food. She also saw butterflies flying from one flower to another, sipping nectar. Meena believes that nature is like a big classroom where we can learn many things. She often tells her friends that plants give us oxygen, animals make the environment lively, and together they keep the earth balanced. Her favourite tree in the park is the mango tree, because it gives sweet fruits in summer. Meena feels happy and peaceful whenever she spends time outdoors. She thinks that everyone should take care of nature by planting trees and keeping the surroundings clean.
